

INSTANT WATER HEATER

REDEFINE THE WAY OF LIFE

REDEFINE THE WAY OF LIFE

Leading the change over the past 20 years

Rubine is the leading household appliances brand for the past 20 years with wide range of technologically advanced products with innovative designs.

INNOVATION

Innovation is the core value of Rubine's ideology and fundamental in development of our unparalleled quality and durable products. All products are designed and built to the highest standards with newest innovations to ensure our products will always perform to the best and reflect the modern trends towards a better living environment.

QUALITY

Top quality, high functionality and irresistible elegance in our product designs, matched by our excellent post sales services are part of our 20 years' tradition. Our aspiration of "Redefine The Way Of Life" will promise to deliver unprecedented and satisfactory user experience.

EFFICIENCY

We employ groundbreaking technologies to develop energy-efficient household appliances to conserve the environment and to improve quality of life, for today and tomorrow.

Instant Water Heater With Rain Shower

Optimize your shower experience with our exceptional instant water heater and beautifully designed rain shower.

Product featured: RWH-IA991D-RCB

Instant Water Heater With Chromed Hand Shower

Our high quality water heater can always enhance your lifestyle and provide you with the best shower sensation.

Product featured: RWH-F191D-RMG

REDEFINE SHOWER EXPERIENCES

SHOWER LIFESTYLE CONCEPT

Our innovative technology with versatile functions on Rubine instant water heater and rain shower series will ensure your sensation, comfort, satisfaction and safety while redefining your shower experiences and lifestyle.

OUR WATER HEATER PUMP TYPES

Rubine's instant water heater comes in three types of pump : AC Pump, DC Pump and Non Pump. Pump type choices may varies depending on your living environment and preferred level of water pressure.

SILENT INVERTER DC PUMP

Eco-friendly DC Inverter Technology
Less Power Energy Consumption
Silent Operation with **<45dB**
Maintenance-free
(No carbon change needed)

LOW NOISE INVERTER AC PUMP

Inverter AC Booster Pump
Decreases Carbon Loss
Lower Operation Noise with **<60dB**
(Compare to normal AC)

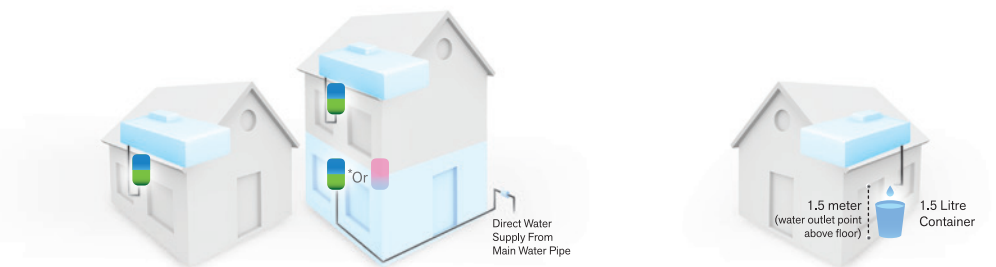

NON PUMP

Easy and User-friendly
Quality and Affordable

INSTALLATION RECOMMENDATIONS INSTANT WATER HEATER PUMP / NON PUMP MODEL

Installation recommendations and methods to choose water heater pump or non pump model for optimum shower experiences:

 WATER TANK  AC/DC PUMP WATER HEATER  NON PUMP WATER HEATER

SINGLE STOREY, DOUBLE STOREY AND LOW RISE BUILDING

Water heaters with AC or DC pump are recommended.
*Non pump water heater only if direct water supply from main pipe with strong water pressure.

MEASURE TIME TAKEN TO FILL UP WATER IN A 1.5 LITRE CONTAINER

Water heater with pump	> 16 seconds
Non pump water heater	< 16 seconds

*Results may varies subject to size and distance of pipe from water tank that may affect the water pressure.

OUR RECOGNITIONS

COMFORT

Prioritize your comfort showering experiences with our sophisticated design and exceptional functions.

LOW NOISE INVERTER AC PUMP

Inverter AC Technology gives you extra benefits of stronger water flow with lower operation noise as compared to conventional AC pump.

LOW NOISE OPERATION

With low noise operation of <60db, you can now enjoy powerful and relaxed showering experiences.

STRONG WATER FLOW

AC Booster Pump creates strong water flow up to +/- 5 litre per minute.

LOW BRUSH LOSSES

The AC booster pump with new innovative technology will stabilize current, minimize sparking and decrease carbon loss. With this technology, AC booster pump will have a longer lifespan compared to normal AC pump.

SILENT INVERTER DC PUMP

The Inverter DC technology reduces energy usage and power consumption while maintaining silent operation for the best shower pleasure. DC pump offers a longer lifespan, so you can get more use out of it, thus more saving in the long run.

ECO-FRIENDLY

Longer life span with low power consumption, you can have a greener lifestyle with an enjoyable shower.

SILENT OPERATION

The silent operation of DC Pump creates a peaceful experience which is remarkably quiet at just <45db.

ENERGY SAVING

Save up to **60%** power and energy consumption compared to regular AC Pump.

MAINTENANCE FREE

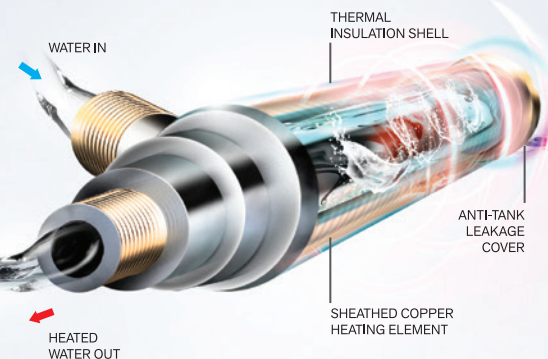

DC pump uses magnet and brushless technology which makes it longer lasting and no carbon-change maintenance needed.

COMFORT

SLEEK STYLISH ELEGANT DESIGN

Rubine Instant Water Heater comes with variety of sleek and sophisticated design with splash proof protection (IP25 Standard) to secure and enhance a lavish lifestyle.

UL-APPROVED HIGH QUALITY UK TECHNOLOGY HEATING ELEMENT

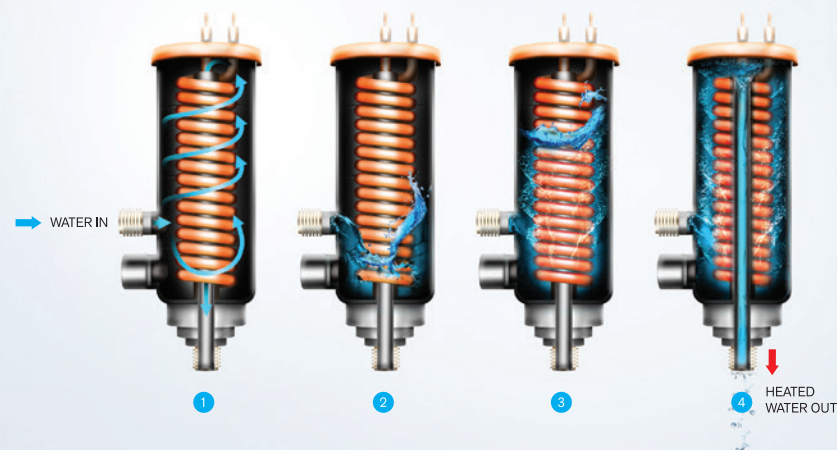

Ensuring peace of mind with quality and reliable UL-approved heating element.

10 YEARS OF WARRANTY
Applicable on
Anti-Tank Leakage only.

7 YEARS OF WARRANTY
Applicable on
Heating Element only.

WATER HEATING PROCESS OF UL-APPROVED HIGH QUALITY UK TECHNOLOGY HEATING ELEMENT

INNOVATION

Adopting advanced innovations and transferring the technology into water heaters that is both efficient and ergonomic for all.

29" EXTENDABLE HEIGHT

200mm

180° FULL SWING

ADJUSTABLE ANGLE

SOOTHING SENSATION

180° FULL SWING

360° ANTI-BREAK ROTATION

ANTI-TWIST FLEXIBLE HOSE

PLEASURE SHOWER IN FULL SWING

Shower bar is extendable up to additional of 29 inches and can be steadily swing for 180°, designed to fit any preferred position.

ENJOYABLE SOOTHING SENSATION

The slim rain shower head with diameter of 200mm, comes in design that can be angled to your desired spot. A optimum 63-nozzles shower head, produces the best showering experiences.

EFFECTIVE ANTI-TWIST FLEXIBLE HOSE

The anti-twist hose prevents any loops or knots regardless how many times the shower head is twisted around.

3-IN-1 DIVERTER

All new 3-in-1 function diverter that allows you to switch between rain shower, hand shower and faucet pipe with just a twist of the knob.

HAND SHOWER VARIATION

Rotate between power mist, wide spray, massage, full and combination spray pattern on hand shower for different usage.

MULTIPLE USAGE FAUCET

Additional heated water outlet in your bathroom for various usage apart from showering.

EASY ACCESS OF WARM AND NORMAL TEMPERATURE WATER OULET

WARM WATER FOR HAND WASH CLOTHES

WARM SHOWER FOR BABY BATHTUB

WARM SHOWER FOR PET MADE EASY WITH FAUCET INSTEAD OF HANDHELD HAND SHOWER HEAD

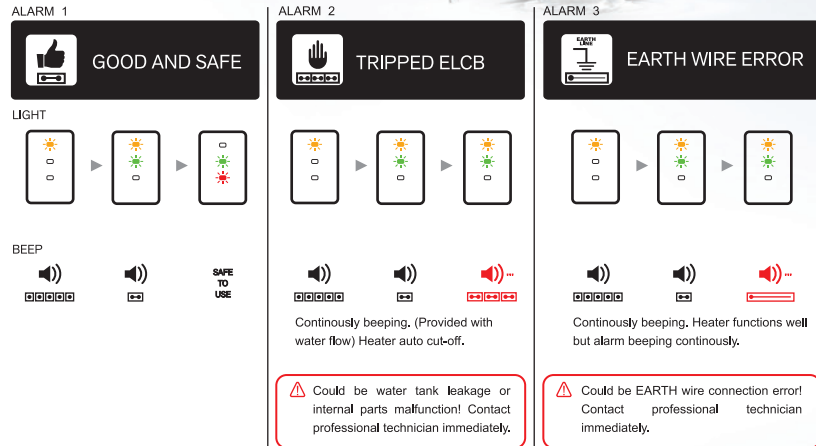

SAFETY

Comply with safety assurances to protect you and your family. Giving a safe and relaxing shower sensation.

INNOVATIVE AUTO INSPECT ALARM

The extra safety built-in Auto Inspection Alarm, serves as a double protection that will checks and detects malfunction on every use. The alarm will set off, if there is malfunction in ELCB or undetectable earth wire.

EARTH WIRE INDICATOR

This safety indicator will ensure the earth wire connectivity & reliably earthed.

* Earth wire is to ground the excess current, should any leakage occur.

SPLASH PROOF CASE COVER WITH IEC INSULATED PROTECTION

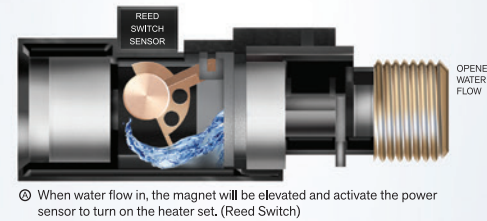

Comply with IEC approved Splash Proof Protection (IP25 Standard) water-proof cover to avoid any water seepage into the heater.

* Always ensure proper seal installation for your safety.

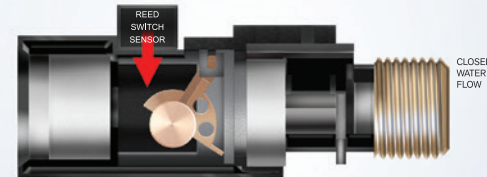

ELCB cut-off power within **0.1sec** when detects electrical leakage of as low as **15mA**

55°C Anti-scalding auto cut-off (Auto reset)
80°C Abnormal overheating cut-off (Manual reset)

Ⓐ When water flow in, the magnet will be elevated and activate the power sensor to turn on the heater set. (Reed Switch)

Ⓑ When no water flow in, the magnet will remain and the heater set will not be activated. (Reed Switch)

COMPACT WATER FILTER & STOP VALVE

Equipped with a superior quality stop valve with built-in water filter to ensure better flow efficiency and filters out water particles.

EXTRA SAFETY DPDT PROTECTION SYSTEM

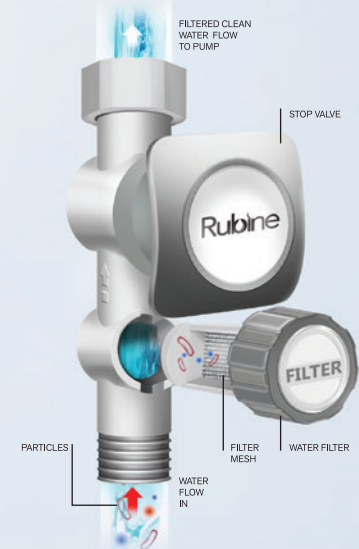

Double Thermal safety cut-off, ensure automatic halt to the temperature if it exceeds a certain point.

- 55°C Anti-scalding auto cut-off (Auto reset)
- 80°C Abnormal overheating cut-off (Manual reset is required)

BUILT-IN AUTO WATER FLOW SWITCH

Automatically detects sufficient water pressure to operate to prevent dryburn.

INSTANT WATER HEATER MAINTENANCE TIPS

FILTER CLEANING

For smooth flow and purified water, wash the Water Filter Valve (a) and Hose Filter (b) thoroughly every month or when necessary.

CHECK ELCB/RCCB REGULARLY

Turn on the electricity and water supply to the heater. Pressing in the "Test" button. Both the "Power" & "Heater" indicator light must go off. Press the "Reset" button to resume power. Consult professional for repair if there is any malfunction of ELCB/RCCB.

SWITCH OFF WATER HEATER WHEN NOT IN USE

Switch off water heater after every shower. This will minimise any electrical damage and also save electricity bill.

EXTERNAL WATER FILTER FOR YOUR HOUSE WATER SYSTEM

You are encourage to install external water filter to maintain purity and optimum stability of water pressure for your showering experiences.

SAFETY PRECAUTION - DO AND DON'T

Do and don't as a simple guidance to secure you and your beloved family's safety with quality and longer life span of water heater uses.

Flexible 3 Core 2.5mm²
(110/76 20Amp Cable)

2.5mm² PVC Single Core
Insulated Cable with
100% Pure Copper

Children and elderly or disable
person should be supervised

Always ensure the right water
temperature before showering

✓ CORRECT WIRING QUALITY WITHOUT LOOPING

Change wiring with quality specification and do not make looping and share with other appliances while installing water heater.

✓ CHILDREN SHOULD BE SUPERVISED WHILE USE

Ensure that children do not play with the appliances and make sure not to leave children, elderly or disable person alone in shower.

✗ Do not install with
unqualified products

✓ Install with our genuine quality
nonconductive products

✗ Do not leave
hand shower idle in the pail

✗ METAL / CHROMED FLEXIBLE HOSE AND CONDUCTIVE VALVE SHALL NOT BE USED

Assure your safety by using our genuine quality nonconductive flexible hose. Do not replace or install with unqualified products.

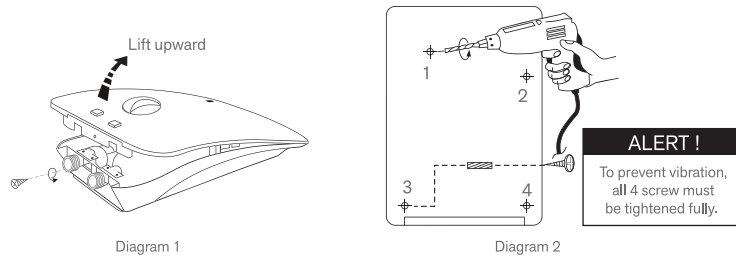

✗ DO NOT LEAVE HAND SHOWER IDLE IN THE PAIL

Leaving hand shower in pail will minimize the water flow, causing abnormal overheating and thermostat may cut off.

⚠ IMPORTANT INSTALLATION GUIDELINES

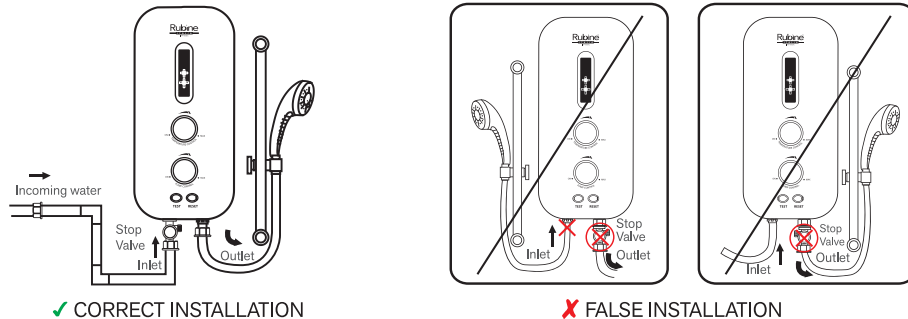

Here are some simple guides of installation and safety precaution.
Always refer to user manual thoroughly and understand the content before use.

1. MOUNTING POSITION

- Remove screw at the bottom of the heater.
- Lift the plastic cover upward (Refer Diagram 1).
- Mark mounting position on the wall for all 4 screws.
- Drill the holes with 5.0mm diameter drill bit (Refer Diagram 2).
- Install the unit to the wall with plug.
- It is recommended that the unit should be mounted above 1.5m or 5-feet above the floor to bottom of heater.

2. INSTALLATION OF HEATER INLET AND OUTLET

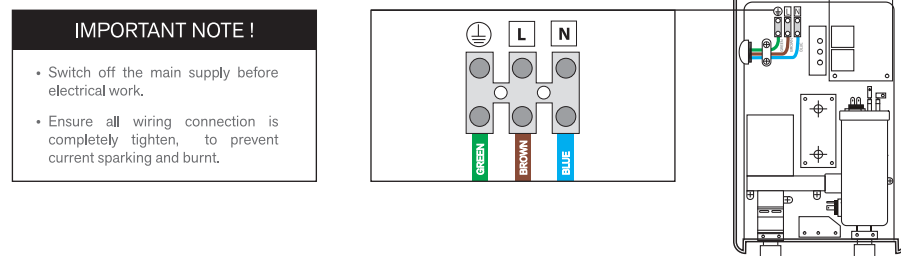

Connect the stop valve to INLET, connect the piping from stop valve to incoming water supply and connect flexible hose to heater OUTLET

Do not install with inlet-outlet reverse or stop valve reverse.

3. ELECTRICAL CONNECTION

- Insert electrical cable through the rubber grommet.
- Connect the cable to the terminal block and fully tighten as below :
