

## New Hybrid Filter Makes Cooking And Cleaning Easier

RCH-THORA-SS

Oily fumes, steam, grease and odours are a thing of the past with the powerful and sleek Thora that employs the revolutionary Pyramid Filter. The first-of-its-kind technology is highly effective in removing smoke and grease from lingering after cooking.

**95%**  
Filtration Rate

### Hybrid Filtration System

The whole new innovative Hybrid Filter is paired with a flat plate and baffle filter. The design is created to channel the surrounding air pressure from **flat plate** towards the **baffle filter** area for faster and more efficient extraction and oil filtration.

MARIA

# Less Cleaning Work, More Cooking Time

RCH-MARIA-SS

Designed to banish cooking fumes, airborne grease and odours from your kitchen, this efficient system makes cooking and cleaning easier. You enjoy a healthier kitchen environment and at the same time know you are kinder to the surrounding walls and surfaces with your choice of kitchen hood.

## H<sup>2</sup>Meltz Technology

Cut Down  
**50%**  
Cleaning Time

## Cleaning made easier

H<sup>2</sup>Meltz technology reduces the viscosity of the oil that accumulates on the fan blade surface, allowing for easier cleaning. The oil flows down more easily into the oil cup.

## Maintenance-friendly system

It is easier to clean the fan blade and motor as the panel that **heats up to 80°C** reduces the amount of oil collecting on these parts.

## Cleaner air quality and surfaces

High performance ventilation and extraction power are specially designed for Asian cooking. The arc-shaped hood and stainless steel filter achieves high oil-filtration and odour-reduction. It also improves air quality while protecting walls and surfaces against discolouration and damage.

## WHO SAYS COOKING MAKES YOU SMELLY, OILY AND SWEATY?

Cooking should be fun and enjoyable. The brand new Sirocco is one of the quickest smoke extraction cooker hoods in the market. Smoke is extracted before it could get near you.

### Quick Extraction

Extracting approx. 2.5 times quicker

The speed of extraction is the duration taken from smoke generated to smoke entering the cooker hood.

350  
INCASSATO

Control panel of the hood can now be perfectly in-line with the kitchen cabinet. This series of hood now has the best of both worlds - design and performance.

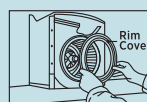

### Easy Maintenance

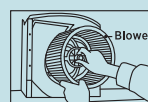

1. Remove Duct Cover

2. Remove Duct Cover Plate

3. Remove Rim Cover

4. Remove Blower

### X-Boost

This feature will further assist you in extracting a greater amount of smoke while you are frying.

### EXCHANGE

This magical button will EXCHANGE the air in your kitchen with the surrounding air. Low-speed extraction will be activated for 8 minutes, every 8 hours and 9 times per activation.

### Ion-Balancer

Anions are produced to balance static charges from pollutants. This will eliminate odours and sanitise the air.

### Oil-Free Wall

The design of the cooker hood covers your wall. Hence oil that would otherwise end up on your wall would flow into the designated oil cup.

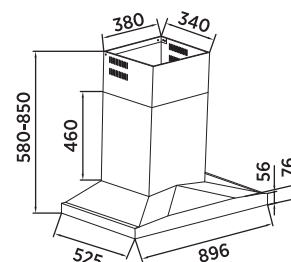

### RCH-THORA-SS

- Suction: 1500m<sup>3</sup>/hr
- Sensor Touch Control
- Stainless Steel & Black Tempered Glass Finishing
- **Hybrid Filter**
- **H<sup>2</sup>Meltz**
- **X-Boost**
- **Ion-Balancer**
